These units are designed to provide surge suppression from service entrance panels to point-of-use equipment. US and Canadian UL® Listed to UL 1449 3rd Edition and UL 1283 5th Edition. Complies with requirements of NEC® Article 285 and CSA 22.2 No. 8-M1986 as appropriate. Complies with UL 96A 12th Edition Master Label requirements for Lightning Protection Systems.

- 10 modes of protection
- 200 KA SCCR
- 10 year, product warranty
- EMI/RFI filtering
- Audible alarm with enable/disable switch, dry contacts, and surge counter standard
- Indicator LEDs; normal (green) and fault condition (red) for each phase

External SPD Options:

- **Enhanced Filtering Module:** Sine wave tracking circuitry provides enhanced EMI/RFI filtering of -54 dB at 100 kHz and establishes a power surge clamping window relative to the sine wave voltage to increase performance at distribution and branch panel applications.
- **Type 1:** 1449 Type 1 SPDs can be located at any point in the electrical system, on the line or load side of the equipment overcurrent device.
- **Integral Disconnect:** The integral disconnect provides a mechanical means to electrically isolate the entire surge suppressor before opening the enclosure door to facilitate servicing of the unit's components.
- **Remote Monitor:** This option displays the alarm status of the surge protective device up to 1000 feet from the unit.

External Modular Assembly (EMA) SPDs

EMA SPD products feature a design based on individual phase modules for a flexible, cost effective way to achieve superior surge suppression at every level of the electrical distribution system. Modularity results in lower life cycle costs and fast, easy service or replacement.

- ▼ 600 V Delta series also applies to the following voltage 600Y/347V HRG.

Note: For UL 1449 Type 1 Modules, add suffix (1). Example: MA11MA121

XDSE Series

Surgeloc™ Type XDSE Surge Protective Devices

Surgeloc™ XDSE surge protective devices feature a compact design that allows surge suppression to be externally installed adjacent to electrical distribution equipment. XDSE systems are designed to provide high-quality surge suppression for a wide variety of commercial, industrial or institutional applications. XDSEs incorporate patented overvoltage technology innovations that provide superior overvoltage withstand capability for systems with unstable power, without compromising transient clamping performance.

US and Canadian UL Listed to the UL 1449 standard. Complies with requirements of NEC Article 285 and CSA 22.2 269.1 and 269.2 as appropriate. Complies with UL 96A 12th Edition Master Label requirements for Lightning Protection Systems.

- LED light indicates operation status
- Short circuit current rating up to 200 kA
- Suitable for indoor and outdoor applications (NEMA Type 4X rated)
- Convenient lug connection inside enclosure
- -50db EMI/RFI filtering
- Audible alarm
- Dry contacts

XDSEMKF

Internally Mounted Surge Protective Devices

Internally mounted surge protective devices are installed integrally to systems for service entrance and branch panel surge suppression. Internally mounted SPDs installed next to supply busses provide maximum performance inside Square D™ systems. Built-in performance is the best way to ensure cost effective power quality (especially important for critical power facilities).

US and Canadian UL® Recognized as a Type 2 (or 1 with optional suffix in catalog number) SPD Component Assembly to UL 1449 3rd Edition and UL 1283 5th Edition. Complies with requirements of NEC® Article 285 and CSA C22.2 No. 8-M1986 as appropriate. Complies with UL 96A 12th Edition Master Label requirements for Lightning Protection Systems.

Factory installed integral/internal SPD products make adding surge suppression to new construction projects easy. Refer to the sections listed below to identify the correct product for your application or contact Customer Care Centre at 1-800-565-6699 for assistance.

SurgeLoc Surge Protective Devices (Available also in Retrofit)

SurgeLoc, a new line of commercial surge that provides advanced power and equipment protection for Square D™ NQ panelboards. SurgeLoc installs in 2 minutes or less, a 90% reduction from the typical 20 minutes for an externally mounted SPD and exceeds competitor products with outstanding specifications in a compact device.

- EMI/RFI Noise Rejection
- Coordinated Fuse Technology
- Eliminates need for additional enclosure or longer wire leads for mounting external SPD
- 24 - 30% height reduction by using standard panel size
- 80,000 to 240,000 Amp Capacity (depending on model)
- 10 year warranty
- Option: Remote Monitor

208Y/120Vb	240	SSP02BIA24PBQ1
240/120 HLD	240	SSP03BIA24PBQ1

■ 208Y/120 series also applies to the following voltage 220Y/127.

Note: When selecting a panelboard with a SurgeLoc SPD, an additional 12 circuit positions (6 adjacent mounting spaces per side) or 4.5 inches of space on each side are required. For example, if desired number of circuits is 30, a 42 circuit panelboard is required.

Note: Surgeloc SPDs are only available in Type 1 SPD format.

Internally Mounted—Retrofit

To ensure high-performance surge suppression at critical power locations, a variety of SPDs have been designed specifically for retrofitting into commonly used Square D™ systems. The QMB fusible switch, 6 in. MCC bucket, I-Line™ and Busway plug-on units come with the SPD factory-installed. Retrofitting SPD units into I-Line, QMB, MCC, and Busway applications is simple.

- Audible alarm with enable/disable switch, dry contacts, and surge counter standard.
- 200 kA SCCR
- Indicator LEDs
- EMI/RFI filtering

- ▲ Requires 13.5-inch mounting height.
- ◆ Requires 9-inch mounting height.
- ◆ Requires 6-inch mounting height.
- △ Can be used on 4-wire or 3-wire grounded neutral system.
- 208Y/120 series also applies to the following voltage 220Y/127.
- ◊ 480Y/277 series applies to the following voltages 380Y/220, 400Y/230, and 415Y/240.

() For a Type 1 SPD, add a "1" suffix to the catalog number.

Note: 480 V Delta series also applies to the following voltage: 480 V Wye HRG.
600 V Delta series also applies to the following voltage: 600 V Wye HRG.

OEM Kit

OEM/Assembler Kits

OEM/assembler kits allow manufacturers to add industry-leading surge suppression directly to customized equipment. Manufacturers benefit from shorter wire lengths that optimize the clamping voltage of the SPD. Products come with a backplane-mounted SPD, mounting hardware and diagnostic display with 36-inch cables. Audible alarm, silence switch, remote monitoring contacts, and surge counter are standard. Available as UL 1449 Type 2 (or 1 with optional suffix in catalog number).

US and Canadian UL® Recognized to UL 1449 3rd Edition and UL 1283 5th Edition. Complies with requirements of NEC® Article 285 and CSA 22.2 No. 8-M1986 as appropriate. Complies with UL 96A 12th Edition Master Label requirements for Lightning Protection Systems.

- ★ 480Y/277 series applies to the following voltages 380Y/220, 400Y/230, and 415Y/240.

SDSA1175

SDSA1175 Surge Protective Devices

SDSA1175 SPDs are designed and listed for indoor or outdoor installation and surge suppression for single-phase three-wire 120/240 Vac or two-wire 120 Vac 60 Hz electrical services. This product is ideal for panel builders as well as manufacturers and integrators of instrumentation cabinets for industrial, commercial, and residential applications for single-phase power systems. Two SDSA1175 surge protection devices can be installed to provide suppression for 208Y/120 Vac three-phase four-wire services.

Listings and Performance: US and Canadian UL® Listed as Type 1 SPD to UL 1449 3rd Edition. Complies with requirements of NEC® Article 285, CSA 233.1-87, and CSA C22.2 No. 8-M1986 as appropriate.

- LED indicates operational status
- Short circuit current rating 25 kA
- Suitable for indoor and outdoor applications (NEMA Type 4X rated)
- Convenient back-nipple mounting

SDSA1175 Surge Protective Devices

System Voltage	Peak Surge Current Rating per Phase (kA)	Cat. No.
120/240 V, 1-phase, 3-wire	36	SDSA1175
120 V, 1-phase, 2-wire	36	SDSA1175T

SDSA 3-Phase Series

SDSA 3-Phase Surge Protective Devices

SDSA 3-Phase Surge Protective Devices are designed and listed for indoor or outdoor installation and surge suppression for three-phase grounded electrical services up to 600 Vac, including delta services. The SDSA 3-Phase series is used extensively in service entrance panels to provide an efficient and economical means of surge suppression.

Listings and Performance: US and Canadian UL® Listed as a Type 1 SPD to UL 1449 3rd Edition. Complies with requirements of NEC® Article 285, CSA 233.1-87, and CSA C22.2 No. 8-M1986 as appropriate.

- LEDs indicate operational status
- Short circuit current rating 200 kA 3-Phase
- Suitable for indoor and outdoor applications (NEMA Type 4X rated)
- Convenient back-nipple mounting

SDSA Surge Protective Devices

Description	Peak Surge Current Rating per Phase (kA)	Cat. No.
208Y/120 V, 3-phase, 4-wire ▼△	40	SDSA2040

600 V Delta, 3-phase, 3-wire	40	SDSA3650D

- ▼ Do not use on ungrounded systems. Systems must be solidly grounded.
- △ Applicable voltages: 220Y/127V, 208Y/120V.
- Applicable voltages: 240V Delta, 240/120V High-Leg Delta.
- ◇ Applicable voltages: 480Y/277V, 415Y/240V, 400Y/230V, 380Y/220V.

XR Surge Protective Devices

The XR SPD provides high-quality surge suppression in a compact and versatile package. This product is ideal for panel builders as well as manufacturers and integrators of instrumentation cabinets for industrial, commercial, and residential applications for single-phase power systems.

Listings and Performance: US and Canadian UL® Listed as Type 1 SPD to UL 1449 3rd Edition. Complies with requirements of NEC® Article 285, CSA 233.1-87, and CSA C22.2 No. 8-M1986 as appropriate.

- LEDs indicate operational status
- Short circuit current rating 25 kA
- Convenient side nipple mounting
- Suitable for indoor and outdoor applications (NEMA Type 4X rated)
- Optional flush mount kit TVSXRFMK

XR Series

XR Nipple-Mounted Surge Protective Devices

System Voltage	Peak Surge Current Rating per Phase (kA)	Cat. No.
120/240 V, 1-phase, 3-wire + ground	50	TVS120XR50S
	80	TVS120XR80S

HWA Series

HWA Surge Protective Devices

HWA surge protective devices are compact, nipple-mounted parallel-connected surge suppressors that come in a variety of voltage configurations, including Delta. A surge suppression path is provided for each mode, and the product is rated NEMA Type 4X. Internal diagnostics continuously monitor the device status.

US and Canadian UL® Listed as a Type 2 SPD to UL 1449 3rd Edition and UL 1283 5th Edition. Complies with requirements of NEC® Article 285 and CSA C22.2 No. 8-M1986 as appropriate. Complies with UL 96A 12th Edition Master Label requirements for Lightning Protection Systems.

- LEDs indicate operational status
- Short circuit current rating 200 kA
- Suitable for indoor and outdoor applications (NEMA Type 4X rated)
- Convenient side-nipple mounting
- Compact design provides easy mounting inside or outside the equipment cabinets
- -54 dB EMI/RFI filtering
- Sine wave tracking
- Audible alarm indicates loss of suppression (does not contain alarm enable/disable switch)
- Dry contacts
- Optional flush-mount kit TVSHWAFMK

- ▲ Can be used on 4-wire or 3-wire grounded neutral system.
- 208Y/120 series also applies to the following voltage 220Y/127.
- ◆ 480Y/277 series applies to the following voltages 380Y/220, 400Y/230, and 415Y/240.

Mounting Brackets and Flush Mount Kits

The nipple products shown in this catalog provide a convenient means of incorporating surge suppression within a new or existing cabinet. The mounting bracket and flush-mount kits are designed for easy mounting of nipple products.

Mounting Brackets for Enclosures

Surgebreaker Plus Whole House Surge Protective Device

The Surgebreaker Plus Whole House device is designed to deliver surge suppression that addresses the entire home. AC modules are connected to the circuit breaker load center and provide suppression for all equipment connected to the power system. This Whole House system incorporates AC modules as well as modules for other metallic lines coming into the home including telephone/DSL and coaxial video/data.

Listings and Performance: US and Canadian UL® Listed as Type 2 SPD to the UL 1449 standard. Complies with requirements of NEC® Article 285, CSA 233.1-87 and CSA C22.2 No. 8-M1986 as appropriate. Telephone and coaxial video modules US and Canadian UL® Recognized to UL 497A 4th Edition and UL 497B 4th Edition.

- 120/240 Vac, 80 KA/phase AC surge suppression
- LED status indicators for AC surge suppression
- Telephone, ethernet and coaxial surge suppression module
- 5 years limited warranty and up to \$100,000 in coverage.

Description	Included Modules	Cat. No.
Whole House SPD NEMA 1	AC, Telephone, Ethernet and Coaxial Video Lines	SDSB80111C

Replacement Modules

The Whole House SPD is designed to provide years of reliable operation. If a surge occurs and exceeds the suppression ratings of the device, there is no need to replace the entire device. AC, telephone, television and network surge modules can be individually replaced.

Description	Cat. No.
AC Surge Suppression Module	HEPD80C
Telephone Surge Suppression Module	PTEL2R
Video Surge Suppression Module	PVR
Network Surge Suppression Module	PNETR6

HEPD Whole House Surge Protective Device

HEPD Whole House devices are designed to deliver superior AC surge protection for the entire AC power system in a home. HEPDs are compact in size and are designed to protect AC wires in the home from surges that could affect home electronics and appliances not connected to surge strips.

Listings and Performance: cULus Listed to UL 1449 Type 1 SPD, CSA C22.2 No. 269.1-14, C233.1-87.

- 120/240 Vac
- HEPD50C provides 50KA max surge current
- HEPD80C provides 80KA max surge current
- NEMA 4X for indoor and outdoor installations
- LED status indicators
- Compatible with all brands of loadcentres
- HEPD50C: 3 years limited warranty and up to \$50,000 in coverage
- HEPD80C: 5 years limited warranty and up to \$75,000 in coverage

Plug-on Neutral QO™ and HomeLine™ Loadcentre Surge Protective Devices

The industry's first exclusive Plug-on Neutral (PoN) Surge Protective Device. Square D™ loadcentre surge protective devices are faster and easier to install than a standard circuit breaker. No wires are needed, it installs as quickly as snap, click, done. The PoN SPD simply plugs on to the bus and neutral bar. It uses two-pole space in a QO™ or HomeLine™ loadcentre.

Listings and Performance: cULus Listed per UL 1449 Type 1 SPD, CSA C22.2 No.269.1, C233.1

- Whole house protection
- CQO250PSPD for QO™ loadcentres
- CHOM250PSPD for HomeLine™ loadcentres
- Plug-on design requires two pole spaces
- LED indicates operational status
- 50KA per phase surge suppression
- 5 years limited warranty and up to \$50,000 in coverage
