NEW!

**T72™**

**PROFESSIONAL WIRE & CABLE STAPLE GUN**

**SHOOTS LARGE INSULATED STAPLES FOR NON-METALLIC SHEATHED CABLE**

12/2, 14/2, AND OTHER WIRE UP TO 19/32” (15mm) WIDE

Anyone who has ever installed cable with a staple and hammer will fall in love with the new T72™ Professional Wire & Cable Staple Gun. It’s one-hand operation makes cable installation faster, safer, snugger, neater and far easier than ever before. A specially contoured nose guides every staple over the cable to prevent penetration of the cable jacket.

Use the wire guide to perfectly center cables up to 1/2” (12mm) wide. Remove it to center larger cables up to 19/32” (15mm) wide.

Safety, speed and efficiency are built in performance factors that have made Arrow staple gun tackers the preferred fastening tool of professional wire and cable installers in every field.

**T72™ Features include:**

- All-steel construction
- Grooved driving blade
- Patented, jam-proof mechanism
- Short-span, easy compression handle
- Chrome finish
- Grooved wire guides

**3 STAPLE SIZES**
