

DESCRIPTION

692 Series LED Trims - 6-inch Aperture Reflectors - are integral elements in the Halo ML56 LED Downlighting System. ML56 LED System is a series of modular LED Light Modules for use with dedicated 5" or 6" ML56 LED trims. The ML56 LED trims in 5" and 6" aperture sizes are designed to fit Halo, All-Pro and others 5" or 6" recessed housings. The ML56 system is suitable for new construction, remodel or retrofit installation.

SPECIFICATION FEATURES

692 Series LED trims are 6-inch aperture reflectors offered in Specular Clear, Haze (Semi-Specular Clear), and White (Matte White). 692 Series Reflectors also feature matte white finish flange. The precision spun aluminum reflector provides excellent optical performance. The 692 reflectors may be used in most standard height 6-inch aperture recessed housings; Halo, All-Pro, and more (refer to ML56 LED Light Module specifications for details).
