

eXtreme® CAT 6+ Shielded Patch Cords

APPLICATION

eXtreme CAT 6+ Shielded Patch Cords exceed all performance requirements for internal parameters up to 250 MHz. Shielded patch cords protect critical data from EMI (electromagnetic interference) and RFI (radio frequency interference). The patch cords are part of the Leviton shielded solution for use in healthcare, transportation, government, military, manufacturing, casinos, and other environments where EMI/RFI may be a concern. Shielded solutions are Rockwell Automation Encompass™ approved.

SPECIFICATION

CAT 6 shielded patch cord shall meet or exceed applicable electrical performance standards for all internal parameters up to 250 MHz. The patch cord shall be a 26-gauge, FTP construction with stranded center conductors to provide greater flex-life. The patch cords shall be available in standard 3, 5, 7, 10, 15, and 20 foot lengths.

FEATURES

- Strain relief boot ensures long-term network performance
- Stranded 26-gauge conductors provides longer flex-life
- FTP construction provides excellent EMI/RFI protection
- Snagless boot design prevents tab breakage during moves, adds, and changes
- Six standard lengths

STANDARDS COMPLIANCE

Leviton CAT 6 Shielded Patch Cords are part of a complete shielded solution that meets the following:

- ANSI/TIA-568-C.2
- ANSI/TIA-1096-A
- Intertek (ETL) third-party verification
- ISO 11801 Class E

PERFORMANCE SPECIFICATIONS

Available Lengths: See page 2
Outer Diameter (O.D.): 0.240"

COUNTRY OF ORIGIN

USA
