

CAT6 PATCH CABLES

Cat6 Patch Cables

Quiktron's Cat6 patch cables deliver uncompromising performance and exceptional value. Each cable meets or exceeds Cat6 TIA/EIA-568-B-2.1 standards and are designed to handle bandwidth intensive applications. The pairs in these cables feature a high tolerance twist design that helps maintain the twist spacing up to the termination point. This drastically reduces both impedance and structural return loss (SRL) as compared to standard Cat5e wire and keeps Near-End Crosstalk (NEXT) levels to a minimum.

Features:

- Connector: 50-micron gold plated RJ45 male to male
- Conductor: 24AWG stranded copper
- Meets or exceeds all Cat6 TIA/EIA-568-B-2.1
- Q-Series Cat6 patch cables are made in the U.S.A. and are available in custom lengths and colors that ship in as little as two business days
- Both Q-Series and Value Series Cat6 patch cables feature a lifetime warranty
- Value Series patch cables available for same day shipping
