

Carflex® Liquidtight Flexible Conduit and Fittings

Carflex® Liquidtight Whips

Carflex® Liquidtight Whip assemblies save the customer time and hassle of having to hunt for the needed components. Our moisture-tight non-metallic flexible conduit system is ideal for installing swimming pool motors, hot tubs, spas, air conditioners, pumps, outdoor lighting and more.

Unlike plastic-coated metal conduit, the Carlton® Carflex® system has no metal core to fatigue, rust or corrode. The Carflex® system has no sharp edges or burrs to cut into the wire insulation. Metal conduit is subject to fatigue and penetration of moisture.

The Carflex® Liquidtight Whip assembly is complete with Carflex® moisture-tight conduit, wire, one straight fitting and one 90° fitting.

All this enables quick and trouble-free installation.

Features:

- Designed for easy installation
- Will not rust or corrode
- Can be used for many commercial and residential applications
- Many applications such as swimming pool filters, hot tub spas, air conditioners, pumps, etc.
- Available in 1/2" and 3/4" diameters
- Available in 4' and 6' lengths
- Each kit contains (1) straight and (1) 90° fitting
- Complete with (3) 8-, 10- or 12-gauge wires
- Wire colors: black, green and red

Custom Orders:

Also available in special configurations including different fitting combinations, wire types and sizes and metal-fitting variations. Consult your Thomas & Betts Sales Team for details.
