# ProLume High CRI F40T12 Lamps

ProLume High CRI F40T12 lamps are a smart solution for applications that require superior color rendering. With 90 CRI, F40T12 lamps are not affected by Department of Energy (DOE) efficiency requirements. Available in 4100K, 5000K and 6500K, High CRI F40T12 lamps offer a convenient option for applications which have T12 ballasts and require a quick lamp replacement.

### Markets:

- Commercial
- Industrial
- Healthcare

### Specifications:

- Available in 4100K, 5000K and 6500K
- 90 CRI provides high quality and consistent color rendering
- T12 lamp retrofit
- TCLP Compliant

### Applications:

- Education
- Office
