TRAPSSNAKE™ 6' Toilet Auger

Our TRAPSSNAKE™ 6 ft. Toilet Auger presents a breakthrough in protection, ease of use, and durability over every closet auger that exists today. This drain clog tool features several industry-firsts, including a fixed rubber boot for maximum porcelain protection, an integrated locking mechanism that holds the cable in place for easy telescoping extension, and replaceable cables to maximize the longevity of the tool. As part of the MILWAUKEE® TRAPSSNAKE™ Porcelain Auger System, you can attach the TRAPSSNAKE™ 6 ft. Toilet Auger to the M12™ TRAPSSNAKE™ Driver, the first powered unit optimized for the challenges of porcelain fixtures. This battery-powered toilet snake delivers the power and speed to work through tough clogs in tight traps with optimized electronics that protect the fixture from the auger, allowing you to feel when the tool is engaged with a blockage to aid in retrieving.
