

Get 'charged up' with the Kilowatt, the first working theme knife designed for the electrician, homeowner, contractor, or anyone who might need to strip wire in a pinch. Three separate systems address wire from fine multi strand all the way up to cable. There is a stripper bar for wire sizes of 10-22, an adjustable spring-loaded UTP/wire stripper in the back, and just in case, our patent pending hole stripper that uses the main blade. Schematic grips, hi voltage tower clip, insulator thumb stud, and a blade with receptacle engraving are signatures that make this a very unique liner lock knife.
