

Catalog No. 6KGP43007X9XXXA1

Description: AF-650 GP DRIVE 460V, 3-PH, 7HP

UPC No 783175439423

Products > Drives > Low Voltage AC > AF-650 GP General Purpose Drives

The AF-650 GP drive is designed for light and heavy duty control of mixers and material handling applications. It also provides vector modes (advanced, sensorless and closed loop) for those demanding torque applications. A rock-solid aluminum base is integrated with the back panel to provide high mechanical stability and the fan is quickly accessible to make cleaning easy

- Available up to 50HP @ 208/230, up to 1200HP @ 460V, and up to 1350HP @ 575V and 690V
- Compliance with major international standards CE, UL, cUL, C-Tick Self protecting features
- Built-in DC link reactor ensures very low harmonic disturbance of the power supply
- Designed for ambient temperatures up to 50°C
- 150% current overload up to 1 minute
- 24V encoder feedback built-in
- Advanced brake control
- Modbus RTU built-in

Descriptors

Category	AF-650 GP General Purpose Drives
GO Schedule	DG

Specifications

Voltage	460 VAC
Horsepower	7.5 hp
Factory Options Description	No Factory Installed Options
Phase	Three Phase
Rated Current	11.0 A
Power (KW)	0.55 kW
Enclosure	IP20 - Open Chassis
GSA Compliance	No

Dimensions

Height	14.7 in
Depth	8.7 in
Width	3.5 in
