Subject: Tele-Mate® Series Telephone Test Sets:
TM-500 and TM-500T

From: John Fee

GREENLEE®
A Textron Company

Product Positioning Statement:

In the evolving world of telecommunications, the **NEW** Tele-Mate® Telephone Test Set is designed to help technicians install, service and maintain voice service with ease. Able to tackle the complexities of today's telecom lines, the TM-500 offers the convenience of line powered (no battery needed) operation and useful features like high impedance monitor that is data and DSL safe, polarity test, speed dial, last number dialed and pulse dialing, making a technician more productive. The TM-500 not only works in handset mode, but can be used with the headset (included) for easy hands-free operation. The TM-500 is safe to operate with over-voltage and current detection.

Why Use a Telephone Test Set:

Allows the technician to trouble shoot standard analog telecommunications networks.

Where Are Telephone Test Sets Used:

Outside Plant environments including MRO/facility maintenance and telecommunications.

Product Features:

- Luminescent (glow-in-the-dark) keypad
- Can be used safely on a DSL enabled line without the need of an external DSL filter
- High Impedance Monitor for monitoring line without disrupting existing traffic
- Over voltage and over current protection
- Tone and Pulse dialing for versatility on old and new phone lines
- Polarity test with LED indicator
- 32 digit last number redial and pause
- 10 number speed dial
- Adjustable volume control plus mute
- Pause
- Flash to generate a timed break recall
- Line powered, no battery needed
- Headset (included) for hands free operation
- RJ11 socket

Competition:

Primary competitors include Fluke® Networks and JDSU®. Please see the Competitive Cross Reference which shows the competitive phones and the feature differences.
