Add suffix "BL" to Catalog # when ordering in black, for example NMSC9050BL.

Note: Screw connector onto the conduit until it stops. If the fitting is not in alignment with the knockout, you may unscrew the fitting up to one full turn for adjustment.

Conduit threads onto ferrule and up inside the outer body. The inside taper squeezes down on the outside of conduit for a superior liquid-tight seal. The cut portion of the conduit does not show, giving a more attractive finished appearance. Also for use with flexible non-metallic tubing. These connectors screw on easily by hand and are removable with pliers.
