Slip Meter Riser Fitting

Protects buried conduit in cold climates

Save time and money, and protect non-metallic conduit from damage caused by movement or freeze/thaw cycles with Arlington's new NM2520 slip meter riser fitting.

Easy to install, NM2520 is designed to create an expansion joint in the installation of an electrical service entrance.

NM2520
Patents pending

NM2520 glues onto a 2-1/2" PVC conduit, then attaches to the bottom of a meter enclosure. To complete the installation, slip the 2-1/2" conduit over the 2" non-metallic conduit coming from the ground.

- Meets 2008 NEC 300.7(B)
- Fast, easy underground service installations
- Protects cable from freeze/thaw flexion and ground movement
- UL/CSA Listed

Slip Meter Riser Fitting

Protects buried conduit in cold climates

- 1 Glue NM2520 onto 2-1/2" PVC conduit.
- 2 Slip 2-1/2" conduit over 2" non-metallic conduit coming from the ground
- 3 Attach the NM2520 to the bottom of the meter enclosure. 2 to 2-1/2" meter riser fitting holds conduit firmly in place (locknut is not supplied).
