

Quickflash® Works With All Claddings

- Wood Sidings
- Fiber Cement Sidings
- Vinyl Sidings
- Brick/Cultured Stone
- Metal/Aluminum Sidings
- Stucco Systems
- Rainscreen Systems

Benefits of Using Quickflash®

- Helps meet the 2012 IECC air-leakage requirements
- Reduces liability
- Helps to prevent water intrusion
- Economical — saves time and labor
- Eliminates the need for sealants
- Non-corrosive — non-conductive
- Only flashing that is specifically designed for wall penetrations
- Self sealing around fasteners

All Quickflash® Flashing panels are made in the USA
