

INSTRUCTION SHEET

8060 DLX DELUXE FIELD OFFICE

Description

The Greenlee 8060 DLX Deluxe Field Office tool box is intended to securely and conveniently store tools. It is equipped with a fluorescent light, surge protector and Ground Fault Circuit Interrupter (GFCI).

Installation Instructions

Note: Each component of the 8060 DLX Deluxe Field Office comes with manufacturer-supplied instructions. Read each of these instruction sheets for operating and safety information. Keep all instruction manuals for future reference.

1. Install the lock. (See the instruction manual IM 1145 provided.)
2. Install the surge protector. (See the manufacturer's instructions provided.)
3. Assemble the fluorescent light. (See the manufacturer's instructions provided.)
4. Using chain and "S" hooks, hang the fluorescent light from the hooks on the ceiling of the box.
5. Insert the fluorescent bulbs (purchased separately) into the clear plastic sleeves provided. Push the plastic caps into the ends of the tubes. Install the bulbs into the light.
6. Use the wire tie holders provided to route the cord of the fluorescent light along the right-hand side of the box.
7. Plug the fluorescent light cord into the surge protector.
8. Place the GFCI at a convenient location inside the tool box. See the instruction manual supplied with the GFCI.
