

HBL504SS -- Shore Power Inlet

HBL504SS

Traditional metallic shore power inlet has gasketed, self-closing cover so that the interior is shielded from the elements when not in use. It is watertight when the cover is securely fastened. The mounting holes are 2 3/8" (60.3) on centers, and the rear portion has a 2.171" (55.1) diameter. Mounting screws and gasket are included.

Product Specifications	
Product Type	Shore Power Inlets
Rating	50A 125/250V, 3p4w Twist-Lock
Housing Type	Traditional Metallic
Color	 Metallic
Poles and Wires	3 Pole, 4 Wire Grounding
Approvals	UL, CSA
Moisture Resistance	IP56
UPC Number	78358504058
Weight in LBs	1.85
