

Internal Rail Splices

Item Number	Description
29-7000-010	Splice, Standard (XRS), 12", Mill
29-7000-000	Splice, Light (XRL), 6", Mill

Standard and Light Rails can be easily extended with our patent-pending internal splice bars. The internal splice bars do not interfere with clamping or with mounting, and offer a near seamless appearance. Standard Rail and Light Rail Splices are made with extruded 6063-T3 aluminum. Hardware is included.
