

16R28-W

Single Pole Devices

Brand Features

Leviton's 45° Angle Single-Pole Panel Receptacles are designed to provide superior service and durability, even under the most severe operating conditions. Featuring solid brass contacts and Santoprene TPV insulators, these devices are ideal for use in equipment associated with concerts, sound stages, movie-making, television production and many other power distribution applications. The unique 45° angle is perfect for applications where cables protruding 90° from the panel is impractical. These Leviton 16 Series Single-Pole Panel Receptacles and accessories are UL/CSA Listed and are completely interoperable and interchangeable with any competitive cam-type plugs and receptacles.
