

1x6 Passive Audio Module

APPLICATION

The 1x6 Passive Audio Module is an easy, centralized audio system distribution module that connects up to six pairs of speakers from an entertainment center or amplifier. Just run speaker wire to this passive bridging module and fill multiple rooms with high-quality sound.

STANDARDS COMPLIANCE

Meets or exceeds applicable standards: UL and cULus listed.

PHYSICAL SPECIFICATIONS

Dimensions: 6.58" h x 2.89" w x 1.42" d
Wire Gauge: 14-18 AWG
Requirements: Product must be used with impedance-matched volume controls or controllers.

DESIGN CONSIDERATIONS

- Combine with Decora® Volume Controls to control up to six pairs of speakers from one amplifier or receiver.
- Parallel connection scheme insures the best sound quality.
- User-removable connectors facilitate installation.
- Connects with standard speaker wire.

WARRANTY INFORMATION

- Two-year limited product warranty.
