Refreshed RadioRA 2 Foundation Packages
Now Supporting Approved Dimmable LED and CFL Bulbs

Start every system with a package and add products to finish the job

- Light bulbs are changing and LEDs are paving the way of the future. Stay ahead of the curve with these newly-refreshed packages to effectively dim approved LEDs and CFLs.
- For additional support, the Lutron LED Center of Excellence is a valuable resource devoted to providing answers to all questions about LED control solutions, including bulb compatability (**www.lutron.com/LED**).
- Packages are discounted to allow you to put more money in your pocket or offer better value to your customers.
