The M18™ Cordless LITHIUM-ION 1/2" Hammer Drill Driver not only delivers an industry leading compact and ergonomic design, but is up to 20% faster in concrete than the competition. In addition, the 2602-20 is the only hammer drill/driver in its class with an all metal gear case, providing maximum durability for heavy duty applications. Built with a Milwaukee® 4-pole motor, the 2602-22 delivers best in class 525 in-lbs of peak torque with the M18™ XC High Capacity RED LITHIUM™ Battery, while the 2602-22CT delivers 525 in-lbs of peak torque with the M18™ Compact RED LITHIUM™ Battery. A variable speed

### "Power when you need it."

PROS Durable Easy to use High Power Output

CONS None that I know of

BEST USES Around the house Building a deck Fence Construction Kreg joinery

Comments about M18™ Cordless LITHIUM-ION System M18™ Cordless LITHIUM-ION 1/2" Hammer Drill Driver Kit:

I was building a false floor in my garage and my 12v Drill/Driver wasn't getting it done drilling holes in the foundation to secure the floor. My local home improvement store had a awesome sale on this unit that I just couldn't say no to and needless to say it is now my go to tool when I need a drill. Not only did it make securing the floor to the foundation easy but the construction of the rest of the floor went much faster. I also love that there seems to be more metal in the construction of this drill than many others that I looked at.

**BOTTOM LINE** Yes, I would recommend this to a friend

### "Fine. Some nice features."

PROS Durable Versatile

CONS Difficult To Use Poor Design

BEST USES

Comments about M18™ Cordless LITHIUM-ION System M18™ Cordless LITHIUM-ION 1/2" Hammer Drill Driver Kit:

It needs a holder for Phillips and straight bits. My Makita has them and it is very convenient. Other than that it is fine. Not as powerful as a corded hammer drill, but better than nothing if you need cordless.

CONS None I can find

BEST USES Building Maintenance Remodeling Residential Construction

Comments about M18™ Cordless LITHIUM-ION System M18™ Cordless LITHIUM-ION 1/2" Hammer Drill Driver Kit:

I've been in construction for 11 years, and have always been a Dewalt man, as is my entire crew. My Dewalt Hammer Drill died, and I found a deal on this Milwaukee too good to pass up. Best tool decision I've made to date. There is NOTHING this drill isn't better at compared to my dewalt. I'm seriously impressed, and after just 5 weeks of service, I plan to replace all my Dewalt with Milwaukee. I test drove the Dewalt equivalent, and they ARE NOT what they used to be, none of the tools seem to be. However, test driving the Milwaukee line has done nothing but put them all on my wish list, and owning one, it didn't fall short of my expectations. Kudos to the engineering team at Milwaukee, and thank you as well. Many members of my crew have also been as impressed as I have, and several have already bought into the Milwaukee family. I suspect my entire crew will be going Red and Black in the months to come.

## "love this drill"

**PROS** Durable Easy to use High Power Output Versatile

**CONS** Heavy / Bulky

**BEST USES** Woodworking

**Comments about M18™ Cordless LITHIUM-ION System M18™ Cordless LITHIUM-ION 1/2" Hammer Drill Driver Kit:**

love this drill powers a one and a half inch forstner bit through boards easily lasts a long time have not used the hammer function yet ive had it for almost 2 years my only problems are is that the electric brake stopped working so after you realease the trigger it takes 2 seconds for it to stop and its heavy but compact ive driven a 3 inch lag bolt with this drill love the case stores everything nicely

**BOTTOM LINE** Yes, I would recommend this to a friend
