

## NuTone Ventilation Fans – In-Line

**Remote Mounted In-Line Ventilation Fans** are quiet and efficient residential solutions. The concept is simple: mount a high-performance ventilator in an out-of-the-way spot and you get the power with virtually no sound. Install the housing in the attic or the basement, wherever it's most convenient and discrete.

### In-Line Ventilators Features

- Energy-efficient, permanently lubricated motors
- High pressure centrifugal blowers easily accommodate long duct runs
- Designed for quick, easy installation
- HVI certified and AMCA licensed

### In-Line Fans / Radon Mitigation

- Great solution for large, open spaces
- Install in virtually any orientation
