

Bug-A-Way

Bug 60W Med 120V A19 YE 2OV

Philips Family of Specialty Bug-A-Way Incandescents' yellow light illuminates outdoor areas without attracting bugs like regular soft white bulbs. Use bugway bulbs to light areas where people congregate, for best results, use a regular soft white about 20 ft away. Bugs will be drawn to the soft white bulb, and not the Bug a Way bulb.

Product data

• General Characteristics

Base	Medium [Single Contact Medium Screw]
Bulb	A19
