#### Protection Hood - AFHOOD10 Features and Benefits

Salisbury's Arc Flash Hoods (balaclava) create 360 degree head and neck protection from arc flash dangers, when used with a AS1000 Series Faceshield/Hard Hat/Chin Cup Unit. Each Arc Flash Hood is made from two layers of rib knit material and has an elastic face opening that maintains its shape and size.

The AFHOOD10 has an ATPV rating of 10 cal/cm<sup>2</sup>. The AFHOOD15 has an ATPV rating of 15 cal/cm<sup>2</sup>. The AFHOOD20 has an ATPV rating of 20 cal/cm<sup>2</sup>. Both the AFHOOD28FF and the AFHOOD28EO have an ATPV rating of 28 cal/cm<sup>2</sup>. All are made from FR materials.

*CAUTION: Arc Flash Hoods must be worn in combination with a faceshield in order to comply with the requirements of NFPA 70E and will protect 360o inside the arc flash boundary.*
