FULL INFORMATION

Simple, light, and compact: the SOG Cash Card is a minimalist's dream knife. It boasts a durable blade in a slim profile that easily conceals in any pocket. Clip it to the inside of your pocket or use it as a money and card clip, it ensures that you have everything you need to survive in the modern world.

The well-designed handles, while thin, are comfortable to hold and use. Due to the full-metal construction, the Cash Card can endure years of abuse. The skeletonized structure keeps weight and bulk to a minimum even with its solid liner lock mechanism and 2.75-inch blade. Despite the small size, the Cash Card can still give you maximum versatility as a go-to pocketknife.
