

Open System Communication Connectivity Solutions

Mounting industry standard communication devices in Wiremold Wire and Cable Management Systems has never been easier. The Wiremold Communication Module Series supports open system architecture by providing a variety of unloaded modules to accept devices from other manufacturers. These open system modules provide a flexible and aesthetically pleasing way to connect communication cabling at the point-of-use.

Shown: Dual and Single Unloaded Keystone Jack Modules.

Features & Benefits

- **Open system capabilities.** Unloaded modules are available to accept a wide range of industry standard keystone jacks, SC & ST fiber optic adapters, as well as, select proprietary solutions from AMP NET CONNECT, Avaya/Lucent and NORDX.
- **Wire management compatible.** Modules snap securely into Wiremold communication ready device brackets featuring 2A & 6A openings for an aesthetically pleasing look.
- **Installation and configuration ease.** Modules feature a front load snap-in design for ease of installation and allowing outlet configuration changes to be made quickly.
